

June 5-9, 2019  
Discover The Magic

35th District Agricultural Association

## **NEW Safari Adventure**

### **Get Face-to-Face with Animals of the Wild!**

Head on over to new Safari Adventure LIVE at the Tioga Hall located by the Martin Luther King Jr. Way entrance gate. At this new and FREE exhibit explore the world of reptiles, bugs and birds. This educational exhibit is a family-friendly, engaging and hands on experience. The animals that fill these habitats are unique and diverse as the ecosystems that support them.

Learn about the animals of Africa, Asia and Australia and their habitats and abilities to survive the wilds. Get up close and personal with an African Crested Porcupine, meet the top apex predator of the Bayou or get face-to-face with critters like the Madagascar Hissing Cockroaches. Venture above the treetops to find a raptor perched or a Sugar Glider running through the canopy of the rainforest. Feel the scales of a Tegu Lizard or the spines of a hedgehog! Exhibit experts will be on hand as they tell you all about the incredible wildlife found out in the safaris of Africa, Asia and Australia.

All day there will be up close viewings of animals and then multiple Wildlife talks at 6:30 p.m. and 8:30 p.m. Come Discover the Magic at the new Safari Adventure LIVE at this year at the Merced County Fair, it's sure to be a wild time!

This exhibit is put on by Pacific Animal Productions, a wildlife outreach and education company with the mission to encourage people of all ages to feel a greater connection with nature and creating a lifetime of passion for wildlife through a personal connection.
